As soon as you get off the bus at KL Sentral, you're facing a construction site.

Cross the road so the construction site is now on your right and the road where the bus stops is on your left.

Walk along the makeshift pavement and just follow the path. Carry on walking.

You will see the first traffic light (on your left, construction site on your right) and then at the second traffic light,

cross the zebra crossing and you'll be at the KL Sentral monorail station .

Take the monorail to a stop called BUKIT BINTANG.

Ask for directions to McDonald's Bukit Bintang.

(its the most famous McDonald's store in Kuala Lumpur).

It's just across the street from the monorail station.
